

COMPENG 2SH4 Project – Statement of Contribution

Your Group Name - Jojo

Your Name - Johan Jensen Joseph

Your Team Member's Name - Abdoallah Maklad

You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.
 - Fixed errors in objpos and GameMechs.
 - I did the Food class at the start and then changed to generate food in GameMechs
 - I did 1a, some of 1b, 2a, and some of 2b
 - I did feature 1, some of feature 2 and iteration 3
2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMP ENG 2SH4 project.
 - ObjPos and GameMechs
 - Fixed Error with food generation in 2b
 - Worked on Iteration 3 and feature 3
3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.
 - It was not bad for my first one. It was very hard to manage with github as it wasn't working for me, so we sent files over discord and email.
